Kevin Slim
Frontend Developer

About me

I am a web developer with a strong passion for designing visually stunning and user-friendly websites. My area of expertise lies in front-end development, where I specialize in creating responsive and captivating websites mainly using HTML, CSS, and JavaScript.

I have honed my skills in developing websites that are both functional and visually stunning. I have experience with front-end frameworks like React, which I use to create dynamic user interfaces. I am also proficient in back-end development using Node, which allows me to create robust web applications.

Work Experience

- **Web Developer**
Since February 2023 [Microbits](#) Hazmieh
 - Created websites that were responsive and optimized for search engines (SEO)
 - Designed websites with a focus on user experience and user interface (UI) design
 - Assessed websites in regards to content, look, and feel
 - Reinforced industry best practices on an ongoing basis
 - Refactored code to follow best practices and improve website performance
 - Worked closely with clients to understand their specific needs and implemented their requirements into the final product
 - Collaborated with team members to ensure projects were completed within client deadlines and budget constraints.
- **IT Support Assistant**
From January 2022 to March 2022 [AUL University](#) Dekwaneh
 - Assisted staff members and students with their technological problems.
 - Maintained various technological devices such as computers, switches, routers.
 - Regularly tested new and existing technological equipment.
 - Made sure software is up-to-date and malware-free.
 - Handled tickets sent by students and professors.

Education

- **B.S in Computer Science**
From 2021 to 2024
[Arts, sciences & Technology University in Lebanon](#) Dekwaneh
- **Technical Baccalaureate Certificate in IT**
From 2018 to 2021
[École Technique des Sciences Touristiques et Commerciales](#) Dekwaneh
